Gentlemen:

I have just received a clipping of the Milwaukee paper of February the 25th which tells about the effort made by your club to appoint me a member of the Federal Radio Control Commission.

While I could not afford to drop my business and accept membership on this Commission, nevertheless, I appreciate the good old A.R.R.L. Spirit which animated you fellows in Milwaukee to present the name of your president. It is this sort of spirit which has built up the splendid organization which we have in Amateur Radio today.

I wish it were possible for me to give all my time to amateur radio and to meet the various members all over the country but this is impossible as I have too many large business interests that require a large proportion of my time.

With my best 73's to the members of the Club, and again expressing my appreciation of the spirit back of your action, I am

Sincerely,

AMERICAN RADIO RELAY LEAGUE
